

Setting 3: examining the 100k resume

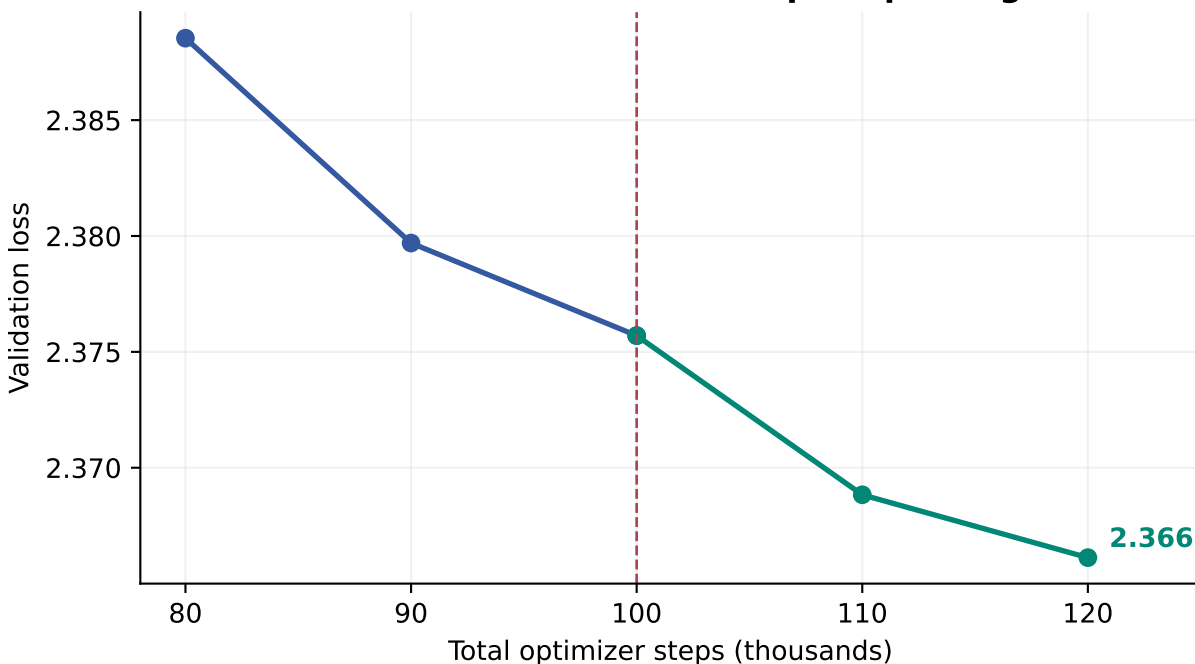

A Global training objective stays continuous

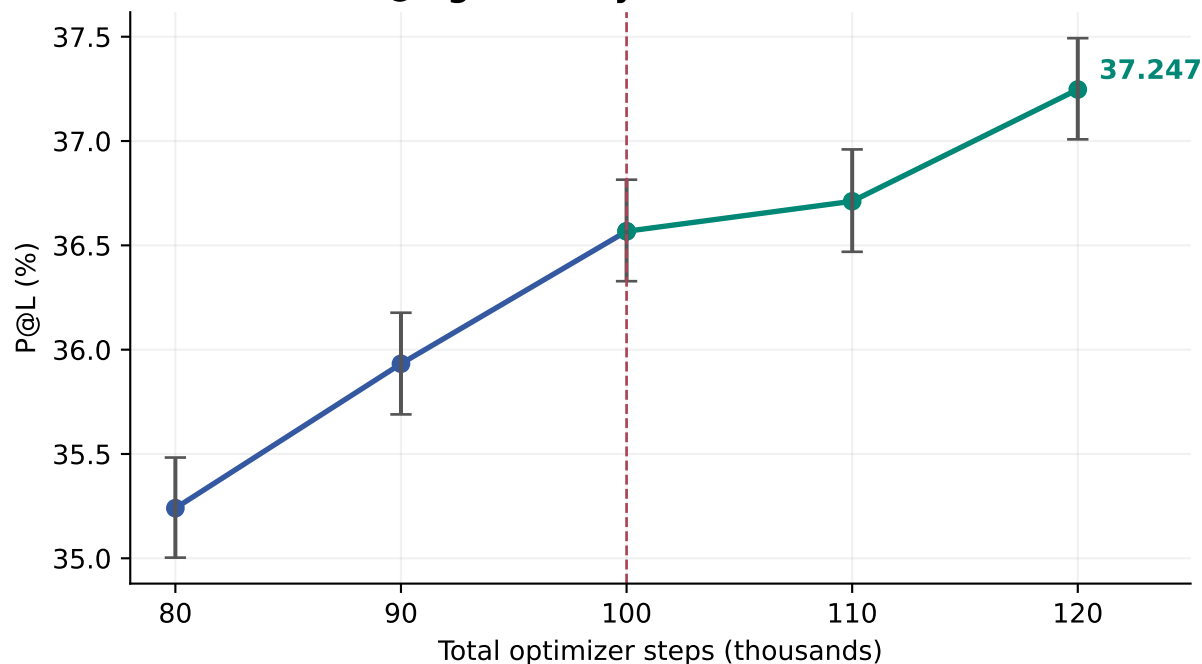

B Rank-0 loss becomes noisier

C Held-out validation keeps improving

D P@L gains vary across 10k intervals

Top panels: every 10th update; lines average 500 updates, separately on each side. Dashed line: resume.

P@L error bars are 95% chain-bootstrap intervals; all evaluation protocols are unchanged.
